

# Project Management Tools: HR PMO Report

Project reporting capabilities automate labor intensive processes **improving efficiency by 25-40%** and providing views impractical to generate manually

## Drive Efficiency

### Key features

- The auto-generated PMO Report can be customized to meet the needs of HR PMO and other stakeholders
- Significantly reduces administrative burden for project management and reporting
- Track progress across all workstreams and gain sense of overall work remaining
- Review progress of issues and plans at individual team level
