

# Offshore decommissioning insurance solution

Decommissioning is one of the biggest issues in the global oil and gas industry today. While the sector is still relatively new, decommissioning of offshore infrastructure will continue to increase as more and more platforms reach their end of design life.

The decommissioning of offshore oil and gas installations and pipelines is not without risk and these exposures need to be carefully managed. Whether you are a contractor or operator, Aon understands the potential exposures and has created a bespoke decommissioning insurance product with specialist carriers that can respond to client's individual requirements, rerequirements.

## Coverage to respond to our client needs

This bespoke solution provides coverage for a wide range of decommissioning risks including:

### Additional costs clause

Sub-limit for additional costs associated with the decommissioning project that are incurred as a result of physical loss/damage to existing property and/or the protect works (the equipment being dismantled) arising out of an occurrence in connection with the project which include:

- Additional marine spread costs
- Mobilisation
- Stand-by changes
- Offshore cancellation costs
- Cost of repair of damage to the permanent works that are necessary for the purpose of completing the dismantling/decommissioning

We're here to empower results
