

Aon's ESG Dashboard

Actionable portfolio insights for investors

“Investors increasingly need to know how their investment funds and portfolio managers evaluate and integrate ESG data into the investment decision-making process. Aon's ESG Dashboard is a market-leading solution that supports them to do this.”

Meredith Jones, Global Head of ESG, Aon

AON

Aon's ESG Dashboard

Actionable portfolio insights for investors

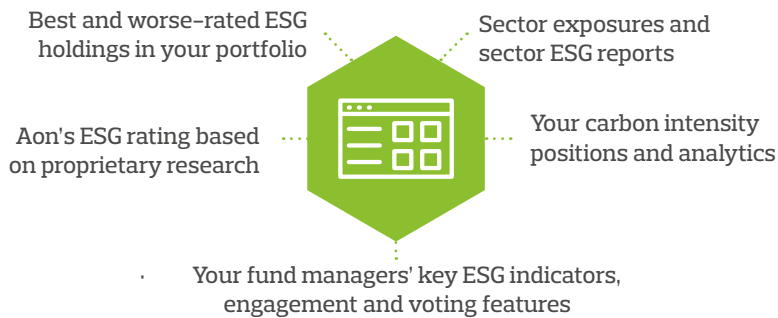

The ability to use ESG data and analytics to enable better investment decision-making has never been more important.

Aon's leading-edge ESG Dashboard provides tailored strategy and manager-level insights – driven by data, technology and investment expertise – empowering you to reduce risks and to build better ESG-aligned investment portfolio.

Through its dynamic, intuitive interface, backed by rich data and insights, the ESG Dashboard supports you to:

- Gain greater insight into the ESG profile of your investment portfolio to support more efficient decision-making
- Drive improvements in your manager ESG policies and practices
- Understand reputational risks posed by exposure to controversial sectors.

Tailored portfolio insights include:

"We are now able to make much more informed decisions in an area that is becoming increasingly critical in our investment strategy."

UK Corporate Plan

"In the world today, where assets are increasingly intangible, and globalisation and social media can mean a company valuation is more sensitive to reputational damage. Using Aon's ESG Dashboard enabled us to understand sector exposures in our portfolio and to take action to mitigate these risks."
