

# Aon Construction, Power & Infrastructure (CP&I) – Serving the Construction and Infrastructure Industry

Aon Construction, Power & Infrastructure is Aon's Specialty practice group dedicated to providing a broad range of risk advisory and management (including insurance syndication) solutions for any company or stakeholders involved in the construction or infrastructure sectors.

Global construction spending now exceeds US\$4 trillion annually. Each project is different and the project can be financially complex, region-specific, and comprise trans-national stakeholders. Aon's specialist construction and infrastructure team provide tailored solutions to help organisations effectively manage and finance these risks.

Aon Construction, Power & Infrastructure (CP&I) is Aon's specialty practice group in Asia dedicated to providing comprehensive risk management services and solutions in the Asian construction and infrastructure markets. The CP&I team develops risk mitigation and insurance strategies to protect construction projects and infrastructure owners over the entire lifecycle of a project and particularly during the transition from construction to operation.

By effectively designing and implementing risk management solutions, CP&I helps its clients deliver bankable infrastructure projects whose risk profile improves sponsors access to finance. CP&I provides risk advisory and insurance syndication solutions for a multitude of companies or stakeholders involved in the construction or infrastructure sector, including:

- Public Entities and State Owned Enterprises
- Construction companies and/or contractors
- Commercial Real Estate and Property developers
- SPV's or LLC's formed for specific infrastructure projects
- Infrastructure funds, private equity investors and managers
- Banks, export credit agencies and multi-lateral lenders
- Consultants and financial advisors

## The Aon Approach

Our industry segments and focus in the construction of:

- Infrastructure, such as:
  - Roads, bridges, tunnels
  - Ports and terminals
  - Waste and water (supply and disposal)
- Heavy civil engineering projects
- Commercial real estate
- Power & Utility or independent power (nuclear, coal, gas) projects
- Renewable Energy projects (e.g. solar, wind, biomass, geothermal)
- Telecom and Technology Infrastructure

Aon CP&I is a market leader, advising clients on projects across Asia, with a particular focus on multi-party project financings for high contract value infrastructure projects. Our team has direct and substantive experience working with both domestic and international project developers and commercial lenders and export credit agencies in relation to these transactions. The CP&I team also provides risk and insurance due diligence advisory services to corporate investors, private equity partnerships and infrastructure funds in respect of M&A transactions for infrastructure assets globally.

The CP&I team has extensive experience in non or limited recourse Project Finance, Public Private Partnerships and privately financed infrastructure initiatives.

## Our Services and Products Include:

- Contract review
- Risk Profiling
- Portfolio Insurance for operational assets
