## Providing clients with global access to account data

In a world full of information, maintaining and accessing business records can be a time-consuming and administrative process. Today, the ability for clients to review their account, day or night, across a secure connection is more critical than ever.

### Empowering Access

ABConnect® is Aon's secure, proprietary web portal that enables our Reinsurance Solutions clients to easily and efficiently access their information 24 hours a day.

ABConnect provides a full range of account handling features and offers a safe and secure environment in which to share files and information with our business partners. Clients can view information about their contracts, claims, accounting, payments and other related documents, in addition to detailed market analysis.

ABConnect's robust security model enables us to provide reinsurers with a view of the business Aon have placed on behalf of our clients. This ensures that all parties involved in a reinsurance transaction can view a single source of accurate data, reducing queries and improving the service Aon provides to our clients.

Account data 24/7	Efficient, secure and personalized global access to account data
Real-time information	All parties in a reinsurance transaction can view a single source of accurate data
Market insights	MarketReView® insights on reinsurer financials and market news
